- Safety:** Tour attendees will need to bring hard hat, safety vest, Safety Glasses and appropriate footwear (hiking or work boots – no open-toe shoes or sandals) suitable for a short trail walk between the parking area and the construction site. Attendees will be required to attend a short safety orientation before being permitted to enter the worksite.
- Carpooling:** Please try to carpool as much as possible to limit the amount of cars on site. If possible, park at the Powerhouse Eatery and carpool to the BPC field office, Thank you.

Project Description

The I-80 bridges over the Lehigh River are eastbound/westbound structures built in 1965 and approaching the end of their serviceable lifespans. These bridges cross over the Lehigh River, Lehigh Gorge State Park, Reading Blue Mountain and Northern Railroad and SR 1005 (River Road) in Carbon and Luzerne Counties. Combined, the bridges carry an average of 27,400 vehicles per day, about 44 percent of which is truck traffic.
